

Plastic causes huge environmental problems. Together, we can make a difference.

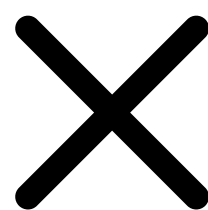

- REFUSE
- REDUCE
- REUSE
- RECYCLE!

Once it's in the ocean or on the beach, plastic is very difficult to clean up.

And recycling is not that easy.

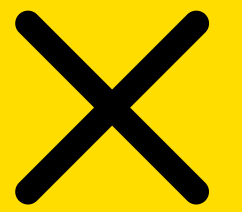

**IS IT
PLASTIC?**

Degradation
time: infinite.

YES

NO

 again

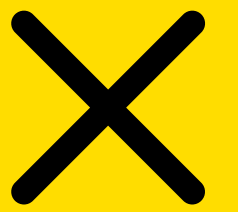

Does it have
a recycling
code?

YES

NO

 again

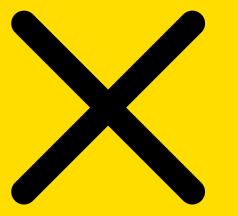

Is it clean
or cleanable?

YES

NO

 again

And the code is?

HDPE

PET

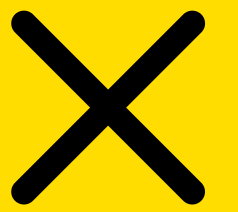

PP

OTHER

 again

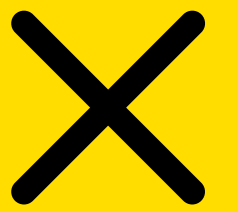

Throw into the collection bin

**FROM SCAVENGED
PLASTIC TO
CIRCULAR
SOUVENIR!**

**HDPE goes into
the workshop.
Take a look!**

 again

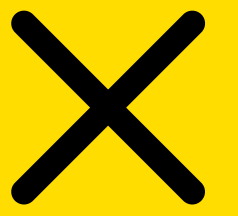

Throw into the collection bin

**FROM SCAVENGED

Throw
into the
collection bin

*All this
plastic is
not recyclable*

Waste

What is it?

ROPE/NET

Breakdown time:
> 10.000 years

TEXTILE

Breakdown
time: > 50 years

WOOD

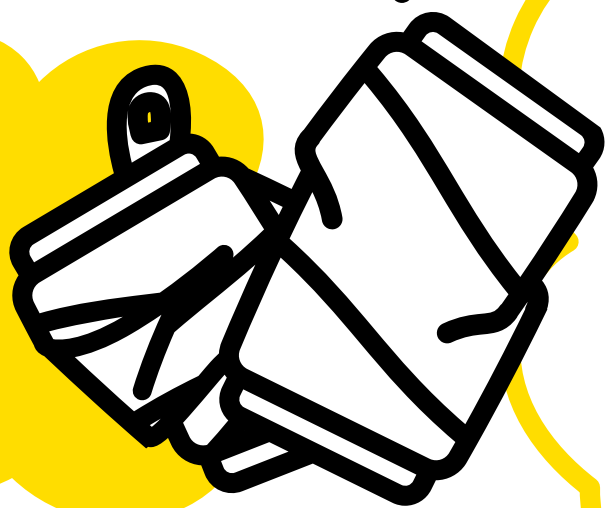

GLASS

Breakdown
time: infinite

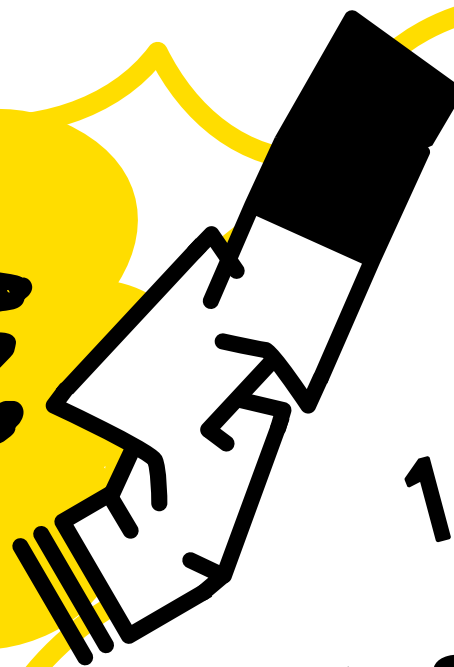

TIN

Breakdown
time: > 50 years

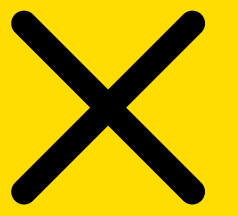

**DON'T
KNOW**

CIGARETTE

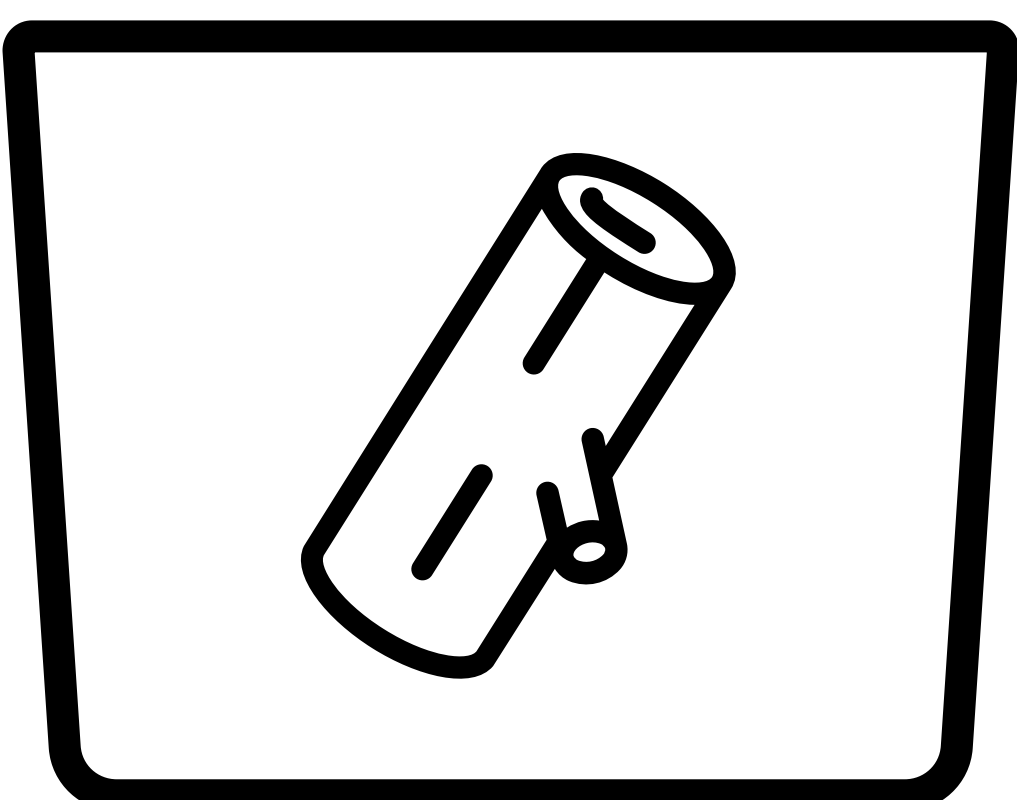

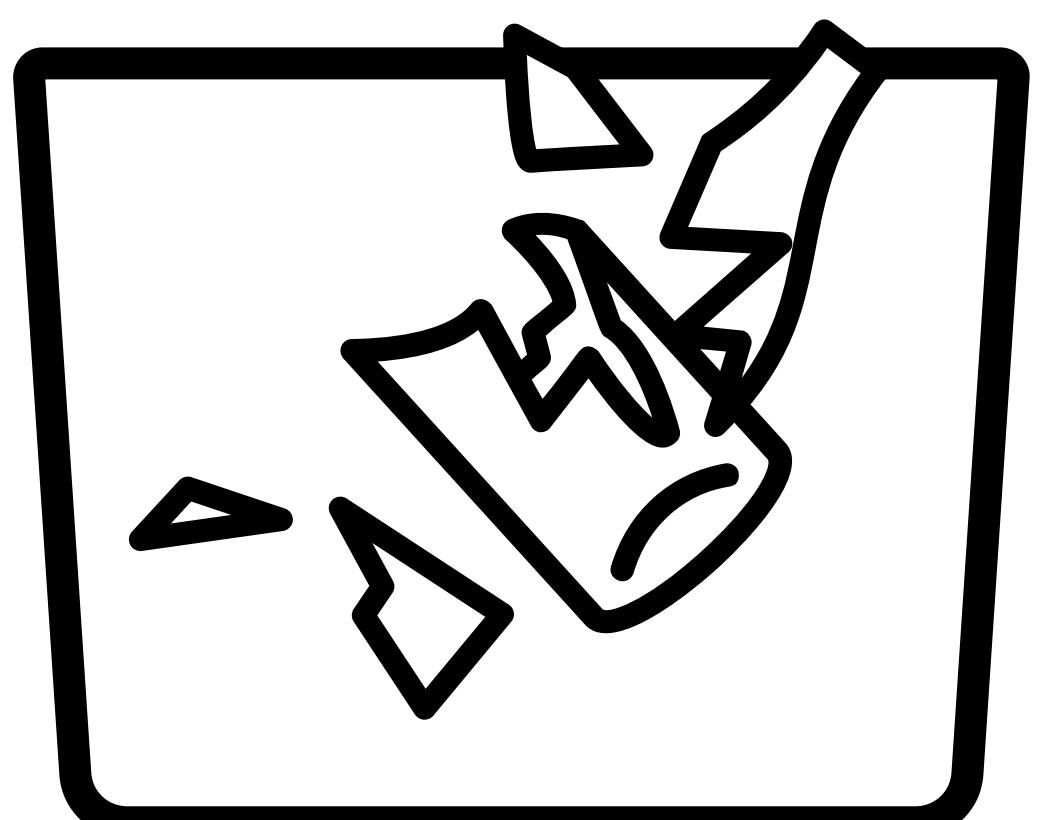

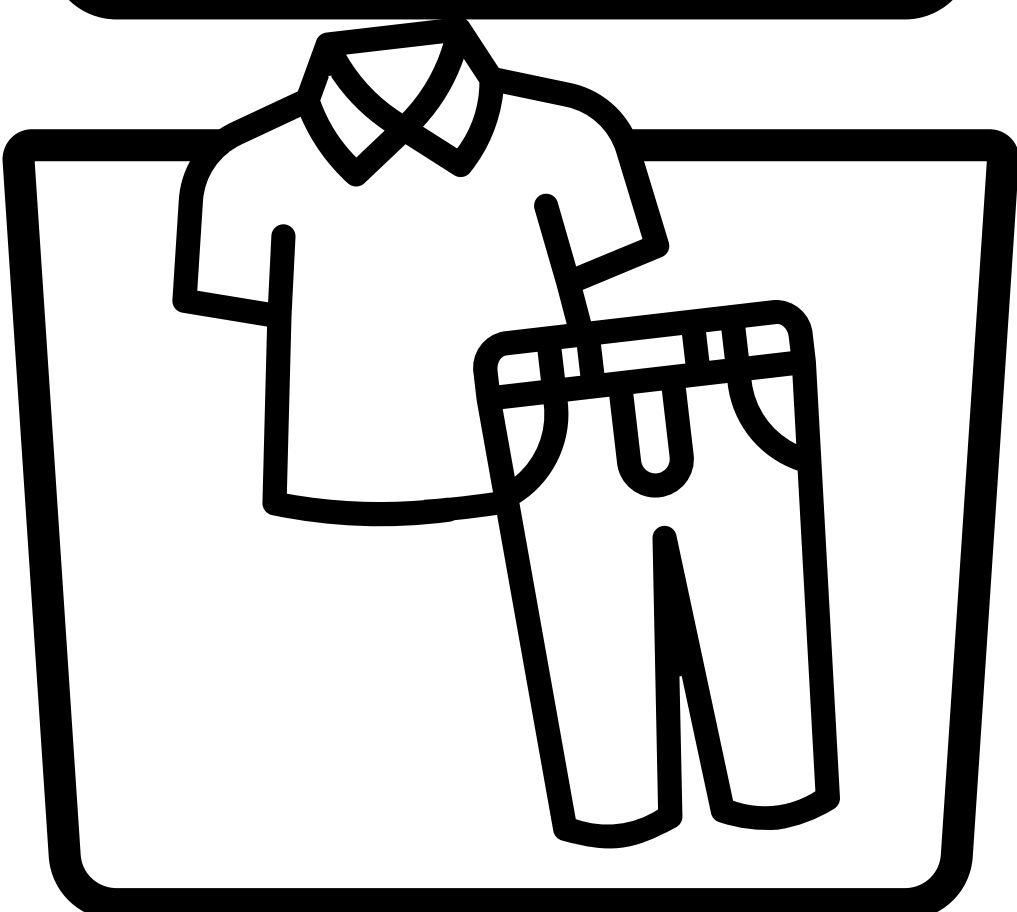

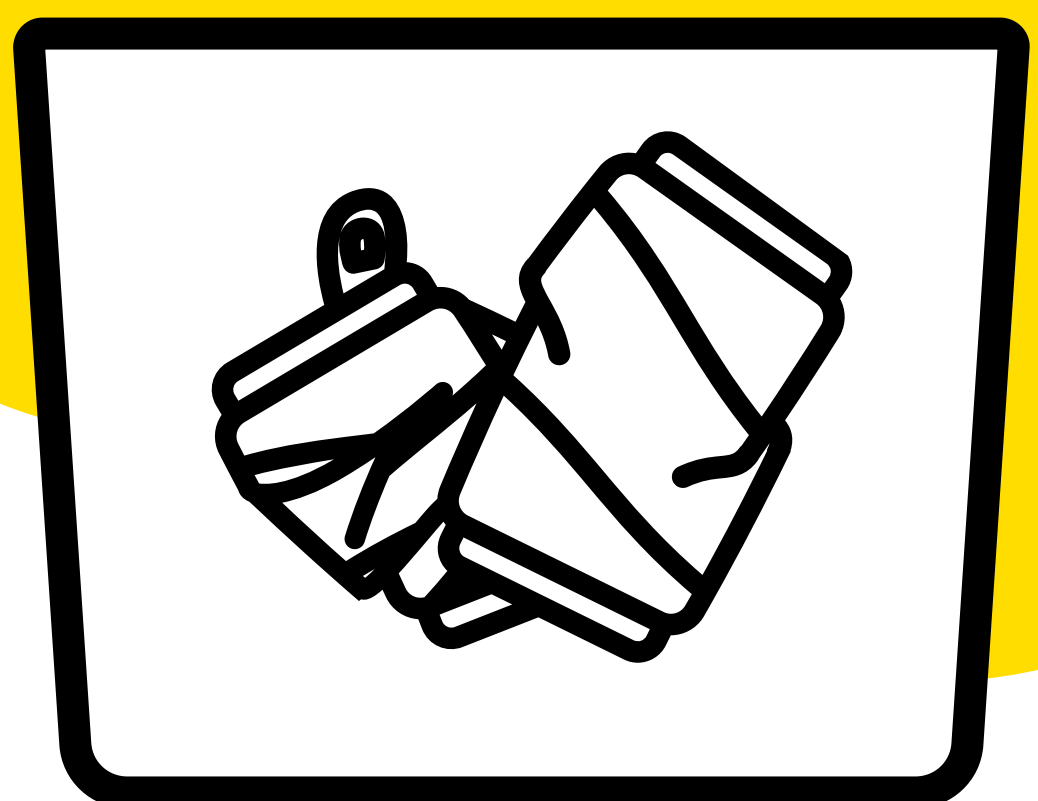

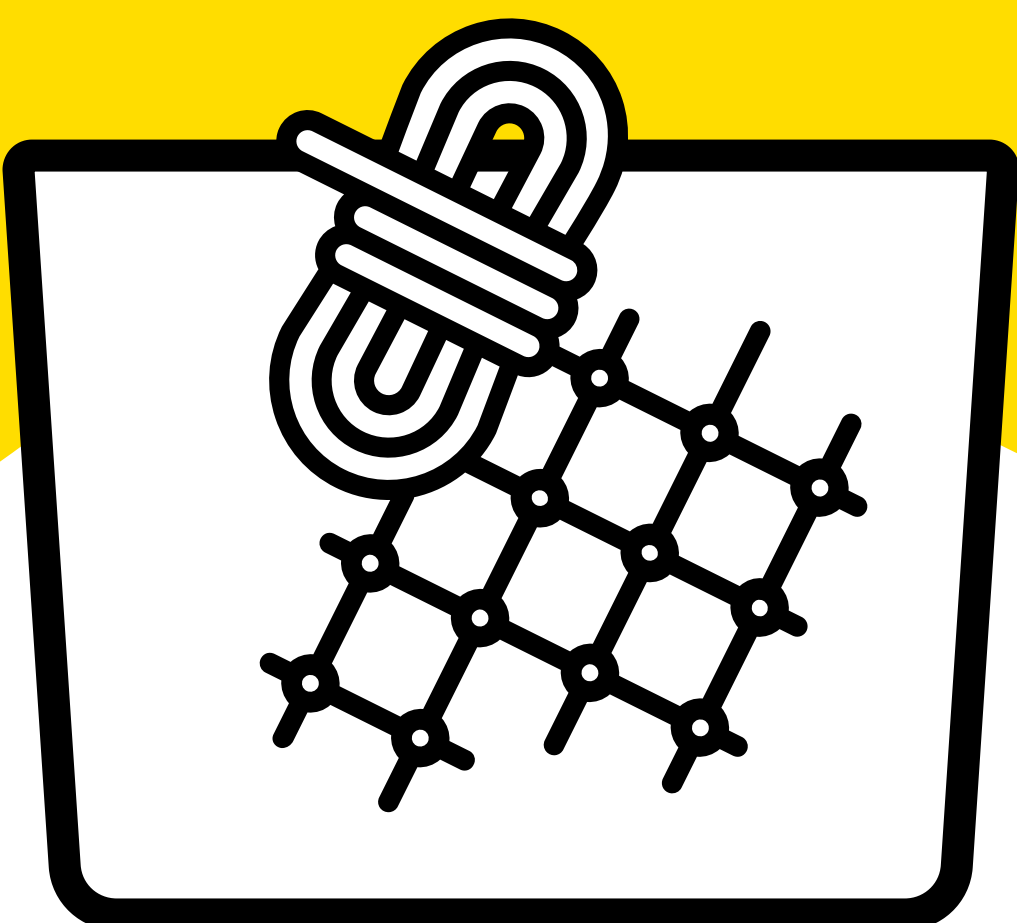

1 cigarette butt
pollutes 8 litres of water.
Breakdown time:
2-12 years

↻ again

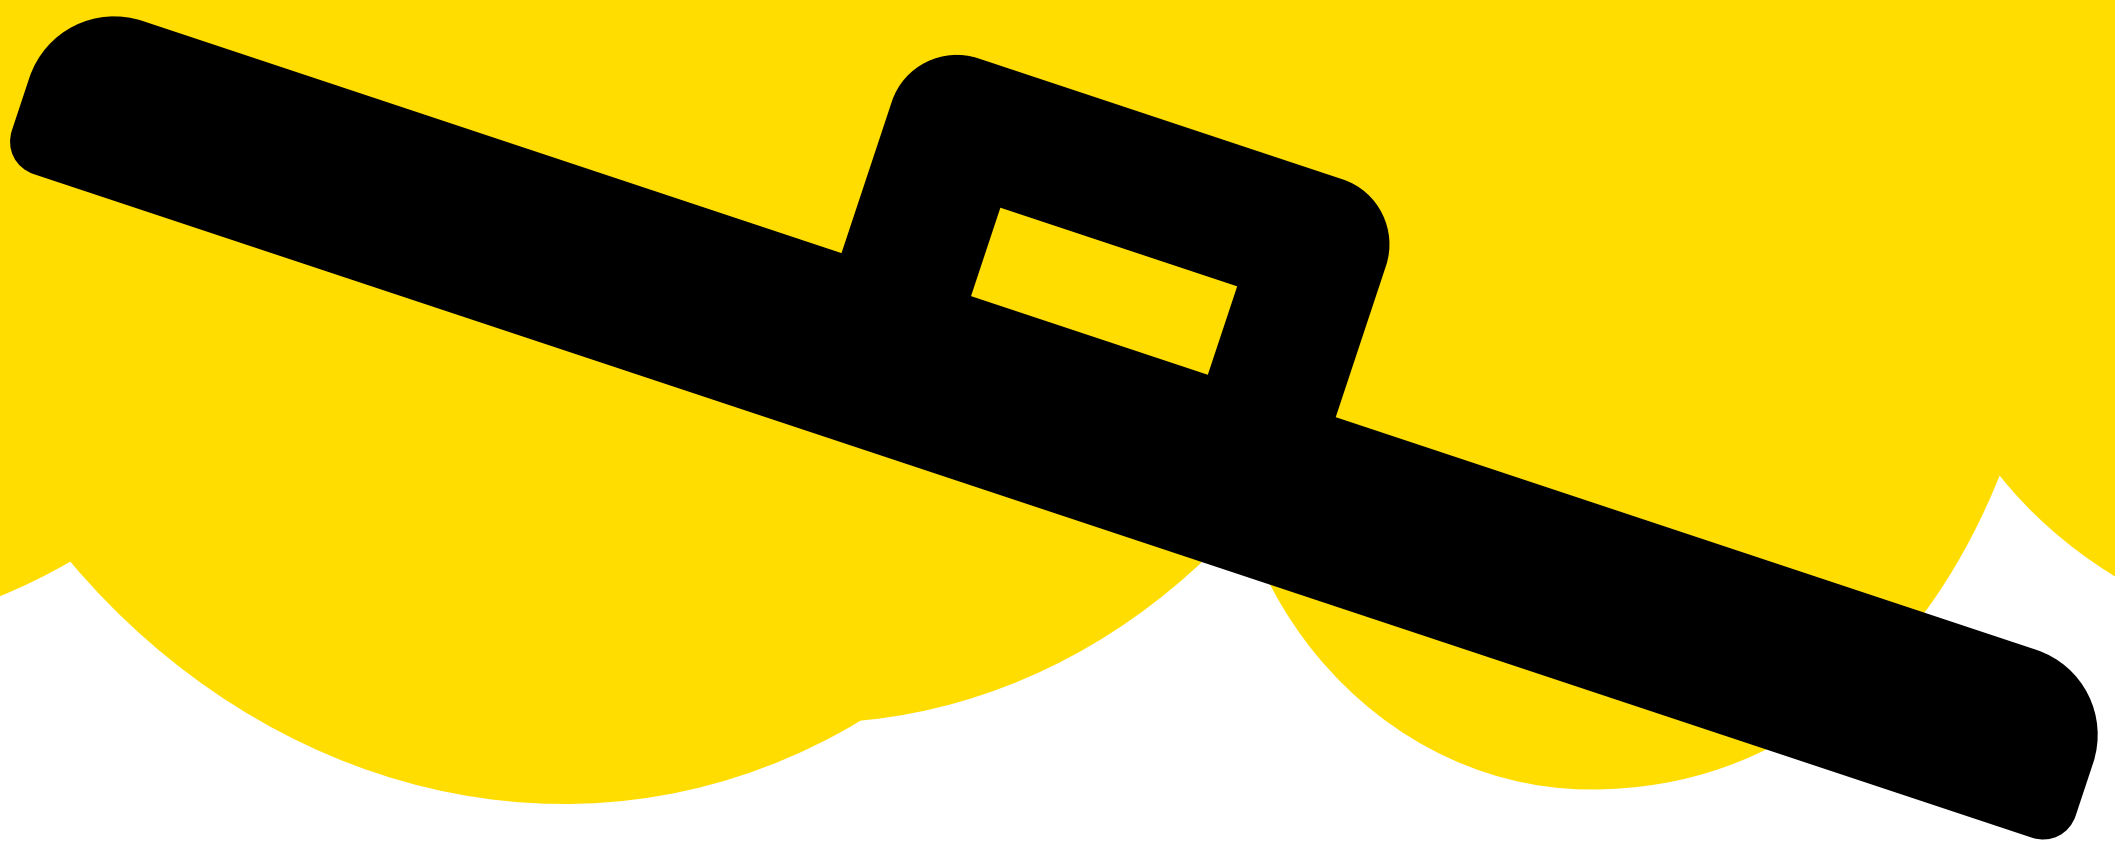

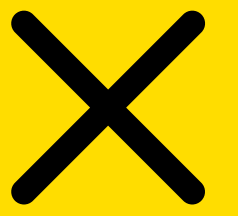

Dispose in the appropriate containers

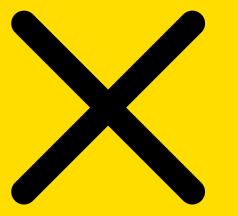

again

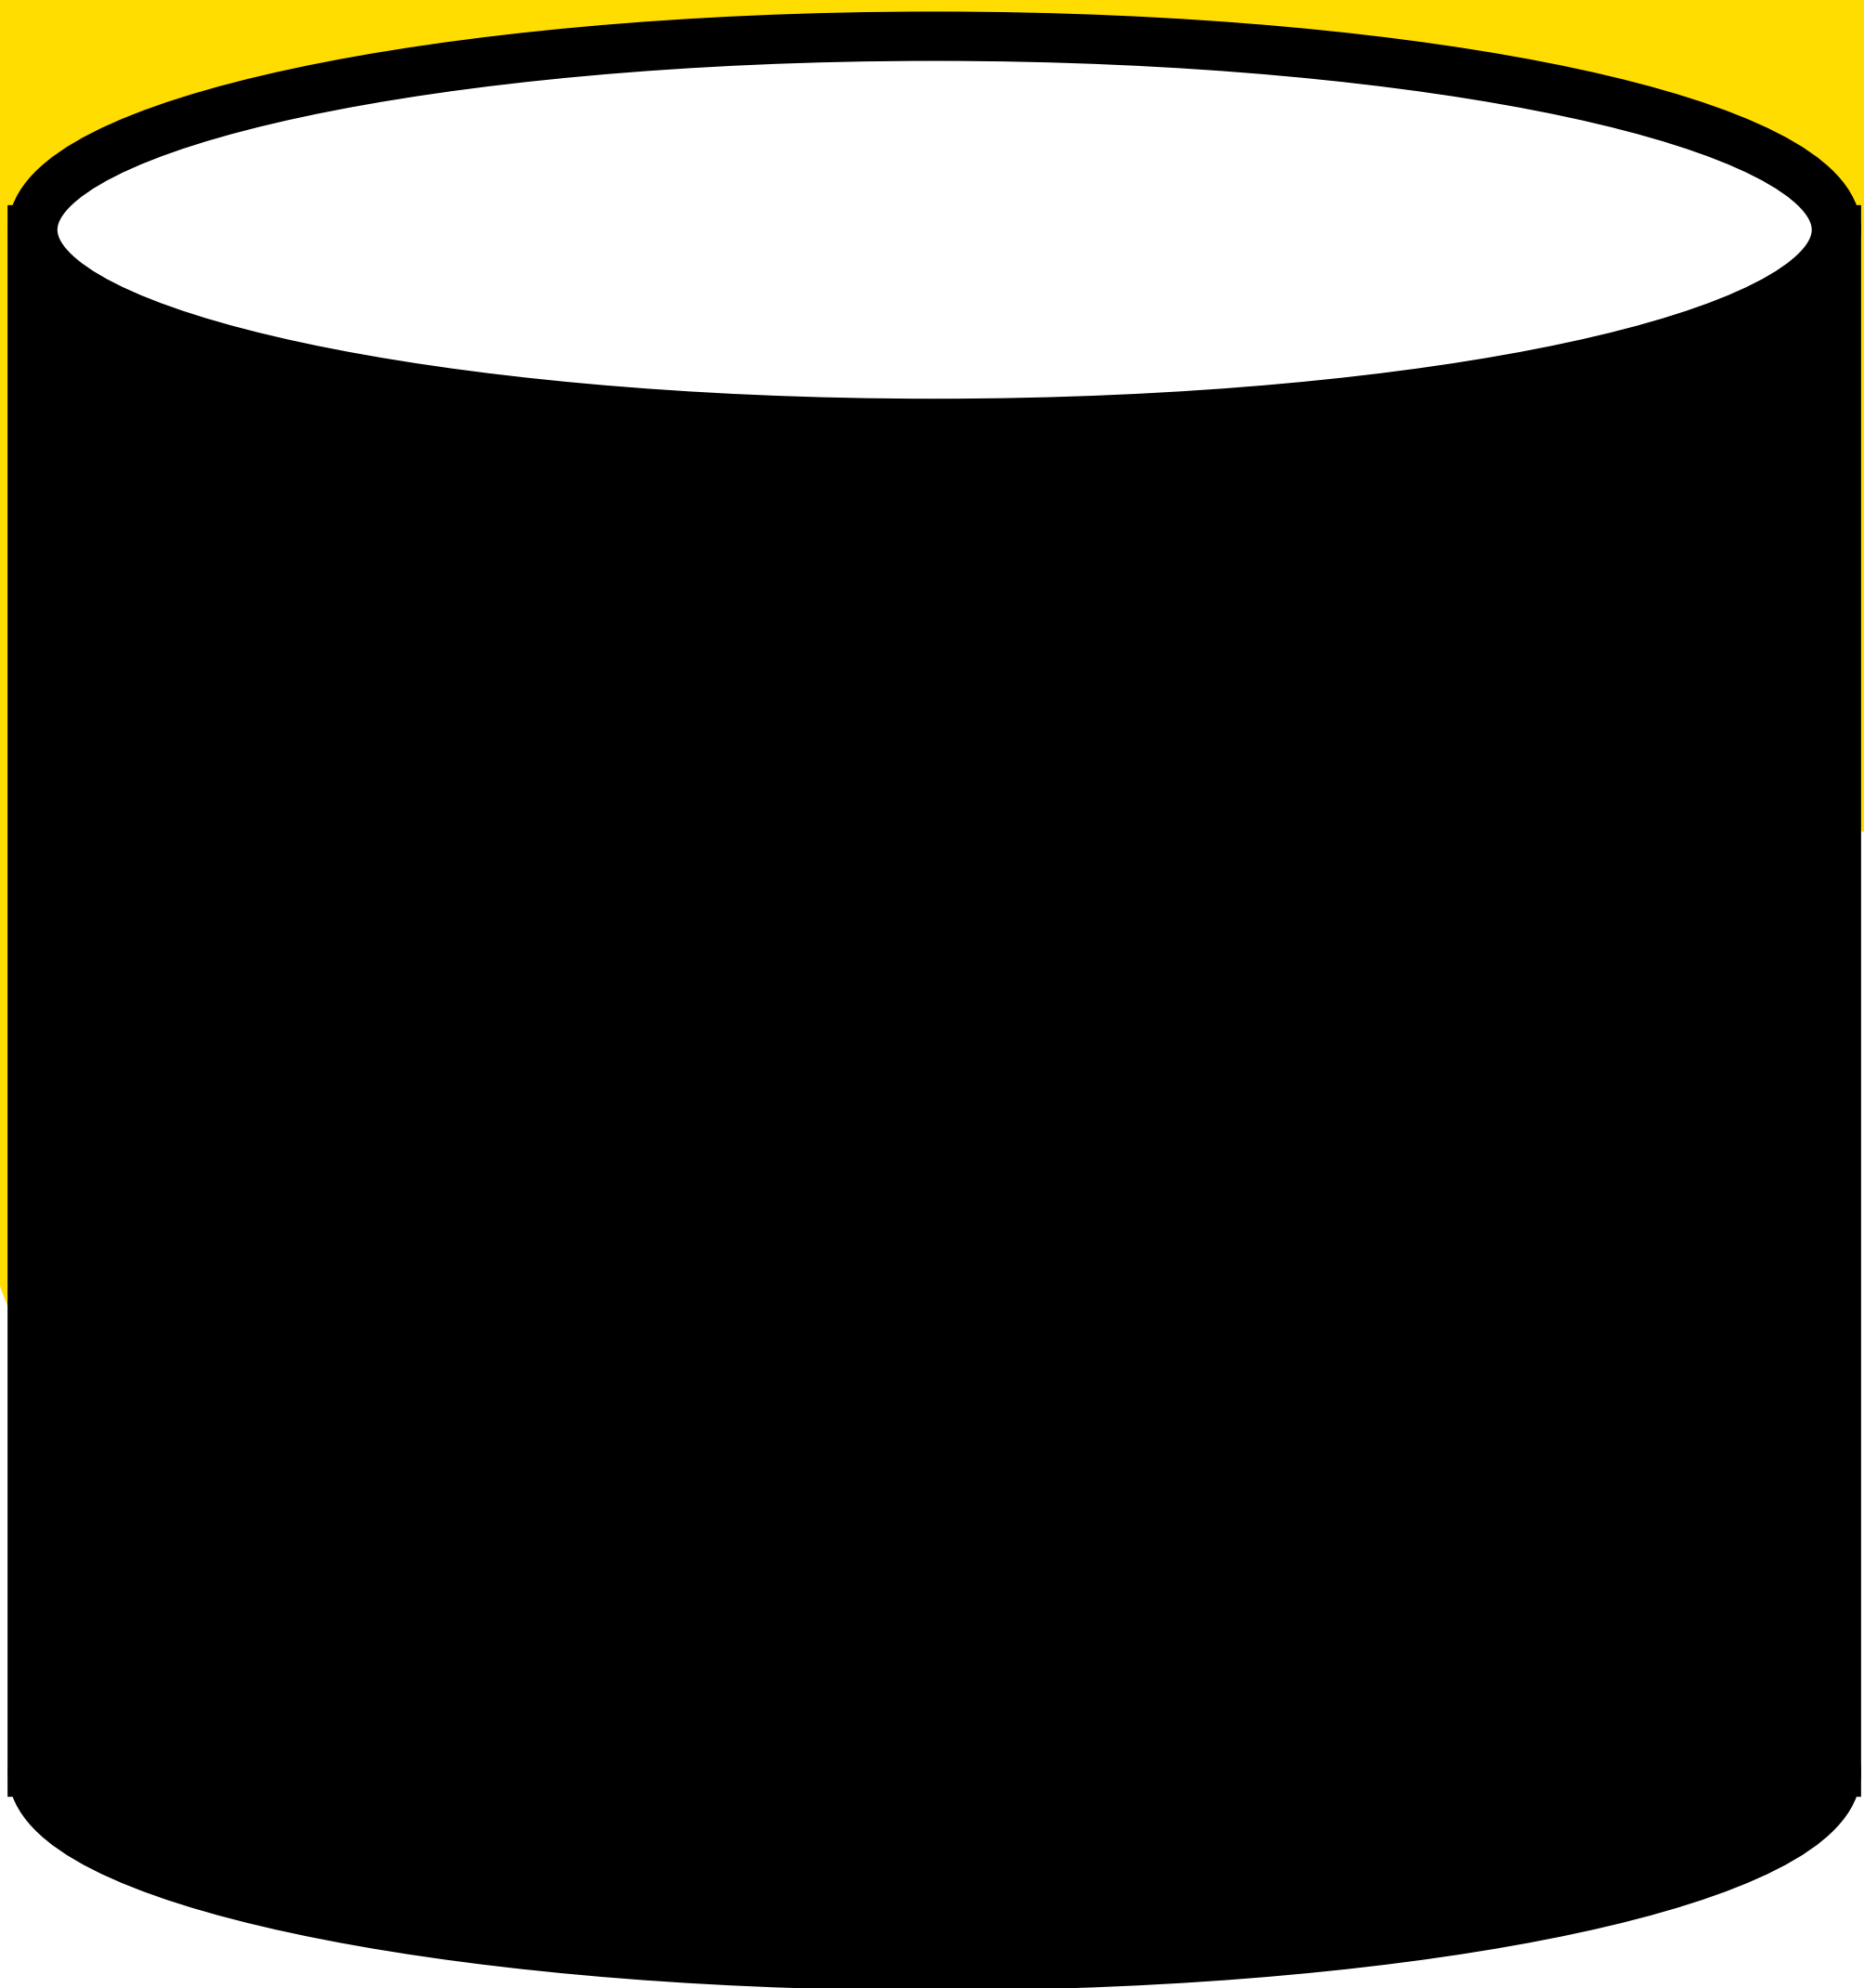

**Residual
waste**

↻ again

Throw in
the cigarette
cylinder

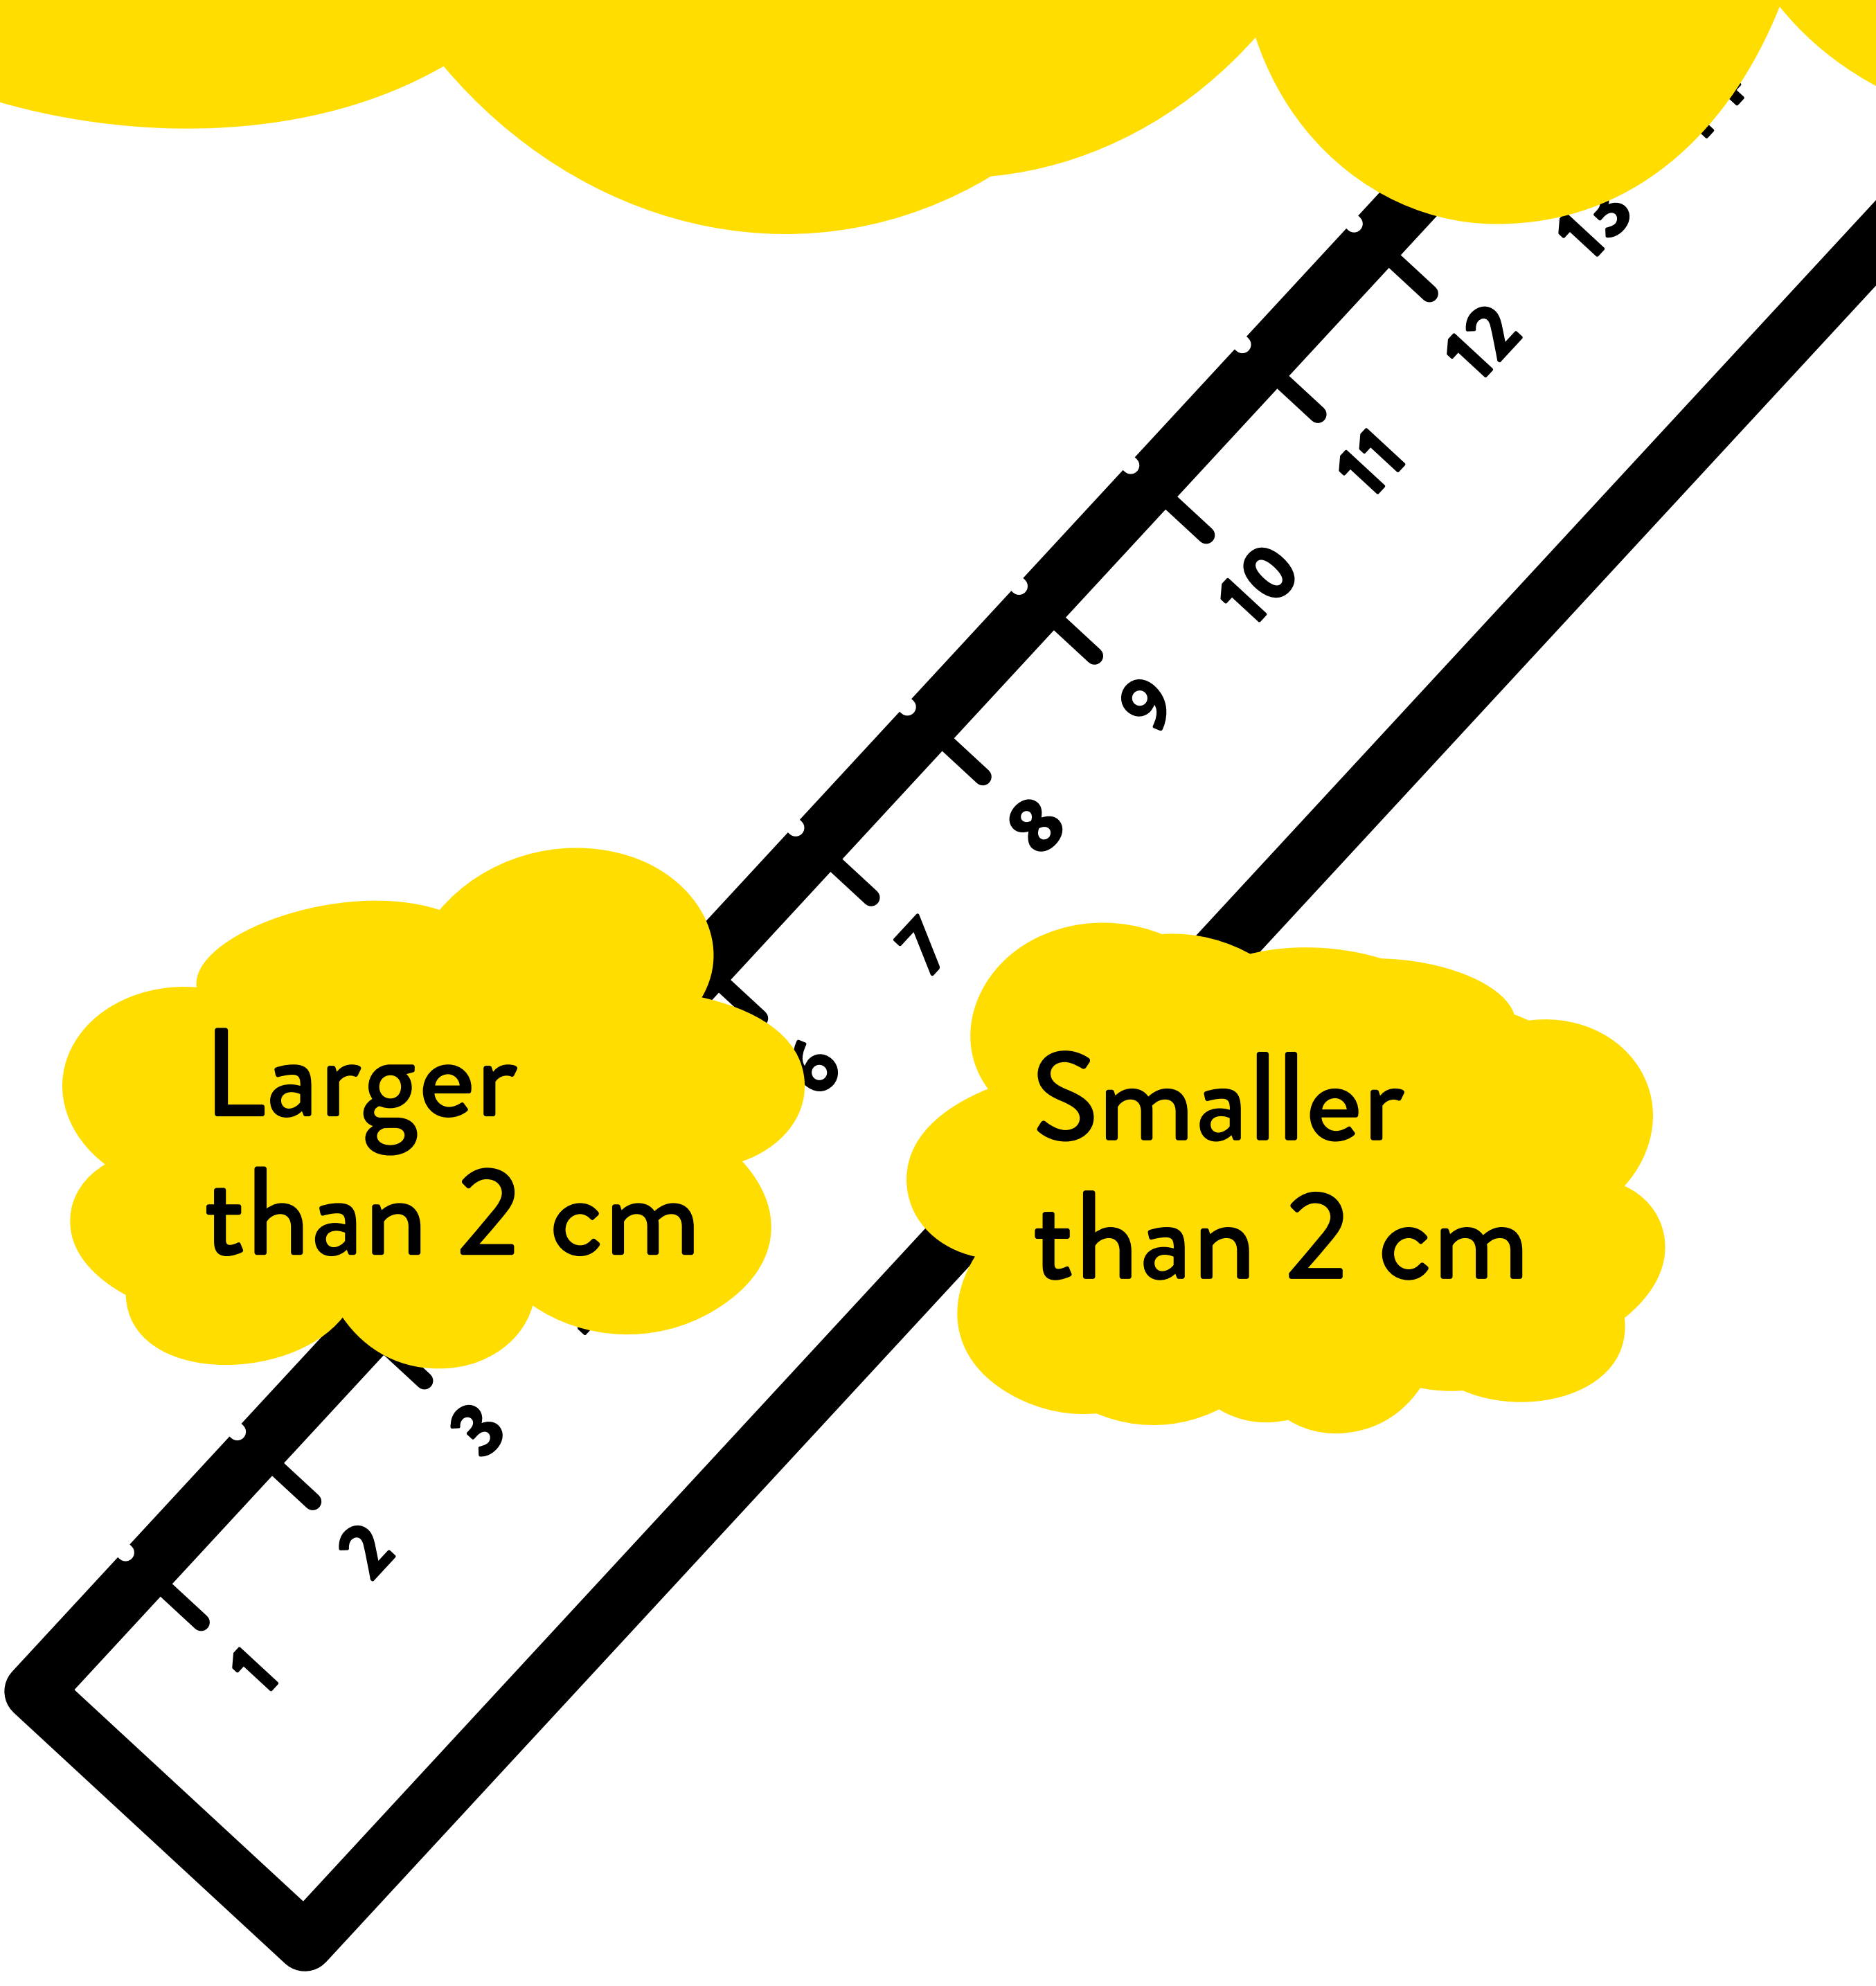

again

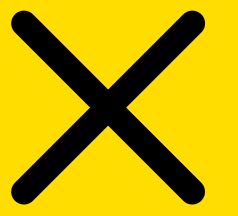

How big is it?

Larger
than 2 cm

Smaller
than 2 cm

 again

Throw in the
microplastics
cylinder
